STUDENT ACHIEVEMENT REPORT

Introduction

The purpose of the annual student achievement report is to provide a summary of student achievement on state and district assessments, as well as other district indicators relating to our academic program. The Waunakee Community School District is strongly committed to providing a comprehensive and well-rounded school experience that supports the development of the whole child. There are significant aspects of this vision that are not easily quantified and indicators of student achievement go well beyond the performance measures presented in this report. It is hoped that this information has value to our public and informs our strategic planning process. These measures may be updated in the future based on feedback from the Board of Education and stakeholders.

District Mission Statement

“Committed to Children...Committed to Community...Committed to Excellence.”

District Vision Statement

The Waunakee Community School District is a school system where students are active learners, that relies on data and research based best practices, as it works in collaboration with the community, staff, parents, and students to ensure that all students are college and/or career ready.

District Visionary Direction

The Waunakee Community School District is a collaboration of community, staff, parents and students that:

- Establishes excellence in all facets of their work
- Sustains learning environments that are challenging and attentive to the diverse learning needs of all students.
- Promotes students who embrace individual and collaborative efforts with ethics, values, and character.
- Respects diversity of cultural and global perspectives.
- Cultivates critical and creative thinkers.
- Institutes a challenging curriculum, and prepare students for their future.
- Embraces a safe environment for the educational, emotional, and physical needs of all.
- Allocates resources in concert with the district’s vision.

STUDENT ACHIEVEMENT REPORT

Summary of High Level Indicators

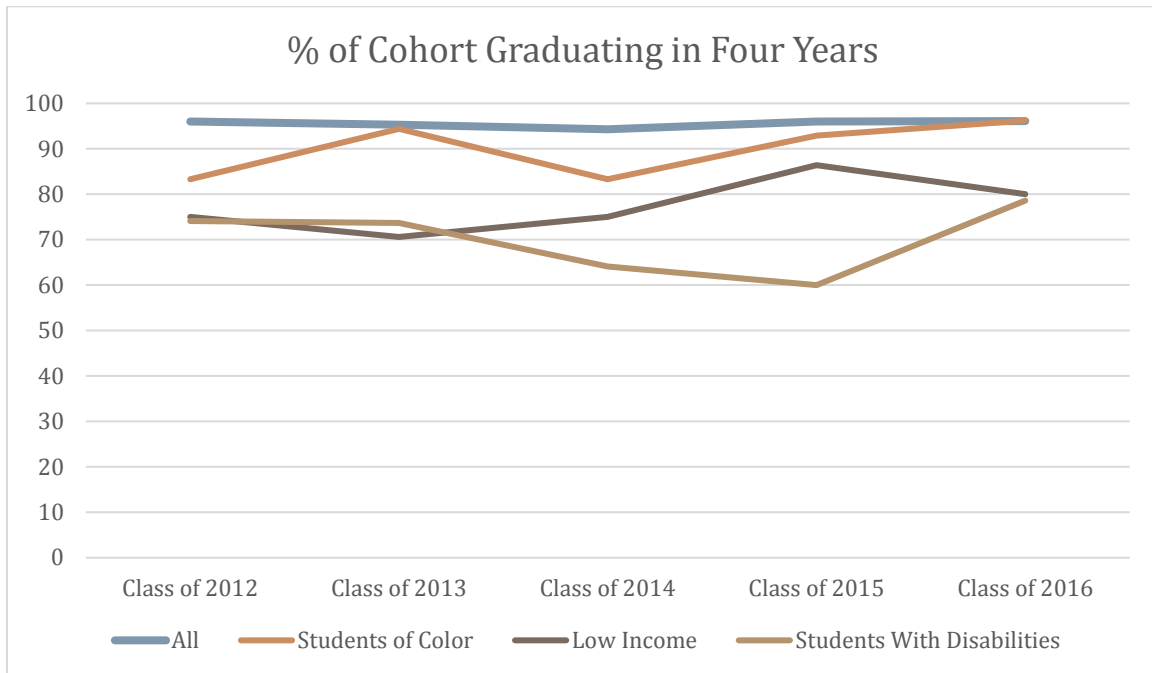

These high level indicators represent important measures of student achievement and growth. There are many ways that student and school success make themselves known and this is only a summary of our progress in providing excellent learning outcomes for our students. These indicators represent our collective performance in academically preparing students for their future in terms of achievement, growth, completion, and post-secondary readiness.

Vital Measure	2011-2012	2012-2013	2013-2014	2014-2015	2015-2016
Graduating High School in Four Years	96.0%	95.3%	94.3%	96.0%	96.1%
Grade K-6 Students Reading at or above Grade Level	NA	NA	NA	81%	81%
Grade 2-8 Students Meeting Reading Growth Target	62%	57%	63%	62%	62%
Grade 1-8 Students Meeting Math Growth Target	70%	65%	67%	63%	59%
8th Grade Students Taking Algebra or Higher	90%	91%	93%	89%	89%

College Freshman to Sophomore Persistence Rate (2yr lag)	94%	93%	93%	97%	93%

Additional indicators, including course participation and state assessment are also presented in the body of the report. Where practical, disaggregated data is presented. The disaggregated data usually includes students of color (SoC), low income students (LI), and students with disabilities (SwD). Percentages vary by grade level, but overall in 2015-2016 students of color comprised 9.1% of total enrollment, low income students 9.1%, and students with disabilities 9.0%.

The ACT College and Career Readiness benchmarks are the ACT scores that correlate with a 50% chance of a B or better, or 75% chance of a C or better, on corresponding first year college courses. ACT research indicates that the foundational academic skills represented by these benchmarks are also necessary career readiness skills. Most individuals in today's workforce will have multiple jobs over their lifetime and likely need to complete more than post high school credential in order for their skills to continue to be relevant in the workplace. Nationally for 2016, 26% of all students taking the ACT met all four benchmarks.

Growth target is 50% percentile of growth nationally. Blue is MAP data, yellow is STAR data, green is combined data. We moved from MAP to STAR in the elementary and intermediate schools beginning in the fall of 2014. Institutional norms vary by test and grade level, but generally we like to see at least 60% of students meeting target in grades 1-5 and 55% in grades 6-8.

An important element of our district math program is for most students to take Algebra or a higher math course in 8th grade. Taking Algebra in 8th grade provides students with more opportunities to take higher math courses beyond Advanced Algebra in high school.

Course participation data is presented to show trends and patterns in student participation in various parts of our elective areas. While mathematics and science are required for graduation, the requirements are two credits each through the class of 2016 and three credits thereafter. Senior year math and science course participation is presented to show students likely taking four credits in these subjects. Science courses in this data do not include (at this time) CTE course that also carry science credit, but courses offered in the science department only.

We obtain this data through the StudentTracker service from the National Student Clearinghouse. Recent years have more disaggregated data. The Clearinghouse makes comparative data available for similar schools who participate in StudentTracker, which for Waunakee is the higher income, low minority, suburban location group. The most recent data available follows.

Immediately Enrolled First Fall: NSC Comparison: 72% (Class of 2014). Waunakee-78%

Persistence Rate: NSC Comparison: 90% (Class of 2013). Waunakee-97%

College Completion Rate Six Years After High School Graduation: NSC Comparison: 51% (Class of 2009). Waunakee-56%
