

EXECUTIVE SUMMARY REPORT

WAUNAKEE SCHOOLS: PRAIRIE ELEMENTARY

Week ending July 31, 2015

What's New?

With the school year right around the corner, construction is accelerating quickly. Gym floor, window, and ceiling grid installation were started this past week, and will continue into next week. More ongoing low voltage work is going on in the existing building, with flooring, toilet partitions, and wood doors to go in next week.

The Past Week

- FRP & Aluminum Doors
- Painting
- Playground curb and perimeter

Coming Up in the Week Ahead

- Carpet tile and other flooring
- Lighting trim
- Wood doors
- Toilet partition
- Casework delivery and installation

In the existing building, one room had carpet tile installed, and it looks great!

New windows in the addition.

A glimpse into some of the accent colors in the new Kindergarten rooms!

Did you know? Paint is not a new product. It is believed that some of its first uses were by the Chinese as early as the first century. They used different pigments on interior surfaces.

EXECUTIVE SUMMARY REPORT

WAUNAKEE SCHOOLS: PRAIRIE ELEMENTARY

Tile placed as a backsplash for the water fountain area between the boys and girls toilet room.

Concrete being poured around the perimeter of the new playground area.

Painters working hard to make the addition look like a classroom.
