Funky Objects

For this project you will be creating a painting of overlapping objects. **Overlapping** is one way to create a sense of _____ in a drawing or painting.

You will start with **contour line** drawings of an object. These drawings will be enlarged, turned, and overlapped when transferred to the final paper. You will need to have at least 6 objects, and the drawing should be balanced. **Balanced** means _____.

Each object will be painted according to a specific color theme. Below are the color schemes you need to include. If you have extra object, you may paint them however you would like. (Please write down the names/hues of the colors you will use for each color scheme!)

Color Schemes:

1. Monochromatic (tints and shades of one color)
2. Complementary (two colors opposite one another)
3. Analogous (three colors next to each other on the color wheel)
4. Tints (of one color)
5. Shades (of one color)
6. Neutral
