# EXECUTIVE SUMMARY REPORT

## WAUNAKEE SCHOOLS: PRAIRIE ELEMENTARY

Week ending June 5th, 2015

---

### What's New?

Construction is moving quickly! The kindergarten rooms in the addition are coming along with the framing going up this past week and drywall to go up soon. The exterior construction is also moving along with the bricking projected to be done as soon as next week, and the early stages of the roof completed.

### The Past Week

- Brick veneer installation
- Precast decking and structural steel install
- Classroom framing and mechanical rough-ins in the new addition
- Roofing started

### Coming Up in the Week Ahead

- Finish the exterior brick
- Shingles to be installed on the roof
- Start on the drywall of the kindergarten rooms

*The framing for the kindergarten classrooms was put up this past week.*

*One student laying a brick on the new addition.*

*The block at the top of the building are blue because they are weather-proof, ready for the Wisconsin winters!*

**Did you know?** Frank Lloyd Wright was born in a town one hour from Waunakee, and designed over 1,000 structures. 532 of these projects were completed, many in the Midwest!
