

Waunakee Community School District

Celebrating Black History Month.

Whereas, in 1776, the founders devised the United States as a nation dedicated to the proposition that “all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness...”

Whereas African slaves were kidnapped, sold and involuntarily brought to the United States as early as the 17th century;

Whereas these individuals and their descendants suffered enslavement, murder, rape, abuse, segregation, legitimized violence by the state, institutional and systemic racism and were denied the basic and fundamental rights of citizenship for hundreds of years;

Whereas, in 2021, the echoes of those injustices and inequalities remain evident in the society of the United States, in Wisconsin, and in municipalities that make up the Waunakee Community School District, from the state murder of innocent black men and women, to racial slurs shouted in schools, out of cars and circulated on social media;

Whereas, in the face of injustices, good people cannot remain silent, and therefore have an ethical imperative to distinguish themselves with a commitment to fight for the noble ideals on which the United States was claimed to have been founded and to fight for the rights and freedom for all;

Whereas the contributions of African Americans from all walks of life throughout the history of the United States reflect the greatness of the United States;

Whereas many African Americans lived, toiled, and died in obscurity, never achieving the recognition those individuals deserved, yet paved the way for future generations to succeed;

Whereas Black History Month, celebrated during the month of February, originated in 1926 when Dr. Carter G. Woodson set aside a month to recognize the heritage and achievements of Black people in the United States;
