District Students

Use and Possession Prohibited: Students are prohibited from any type of smoking and from possessing, distributing, or using tobacco products, nicotine products, non-medical vapor products, and any related items intended to facilitate the ingestion of such substances. These prohibitions apply (1) at all times in all District buildings, in all District vehicles, and on all District premises; (2) while students are attending or participating in a District-sponsored event at any location; and (3) at any other time that a student is under the supervision of a school district authority.

Examples of prohibited items and products include the following:

1. Cigarettes, chewing tobacco, e-cigarettes, nicotine vaporizers, and similar products.
2. Products that use heat, electricity, or a similar mechanism to create smoke or a vapor that is intended to be ingested, and which may or may not contain nicotine.
3. The components, parts, or accessories of any product or device intended to facilitate the ingestion of tobacco, nicotine, or any non-medicinal ingestible vapor (e.g., rolling paper, pipes, or cartridges or similar refillable/replaceable elements).

Exceptions: Non-tobacco, non-nicotine devices or products that have a medical purpose and that are possessed or used by a student under the advice, supervision, or prescription of a medical professional are not prohibited by this policy but are subject to rules related to medication (to the extent applicable) and to any administrative rules or directives regarding appropriate times and locations for use.

District Employees

Prohibited Use: District employees are prohibited from using tobacco products, nicotine products, and non-medical vapor products (1) in all District buildings, in all District vehicles (owned, leased, or contracted), and on all District premises; and (2) in any non-District location when the employee is acting in the scope of his/her employment and either students are present or the use of the product at the location is separately prohibited by law or by the owner of the property.

Restrictions on Possession: To the extent a District employee possesses any otherwise-lawful tobacco, nicotine, or non-medical vapor product on District property or when acting in the scope of their employment, the product shall be stored in the employee's personal vehicle or remain contained at all times within a separate personal item that effectively conceals the product and that serves as a reasonably-effective deterrent to student access.

Exceptions:

1. FDA-approved smoking cessation products that may contain nicotine (e.g., certain chewing gums, lozenges, or patches) that do not have the appearance of a tobacco product, e-

cigarette, or nicotine vaporizer are not prohibited by this policy provided that the employee (1) follows the applicable directions for use of the product; (2) observes any District directives relating to the manner of use of the product; and (3) stores the product in a manner that serves as a reasonably-effective deterrent to student access.

2. Non-tobacco, non-nicotine devices or products that have a medical purpose and that are possessed or used under the advice, supervision, or prescription of a medical professional are not prohibited by this policy but may be subject to other policies, rules, or administrative directives regarding use in a school setting.
3. Upon the written request of a District employee, the District Administrator or his/her administrative-level designee may grant other specific permissions regarding any non-tobacco product that is otherwise prohibited or restricted under this policy if, in the judgment of the administrator, the request will not jeopardize the health of any person and approval would accommodate an exceptional individualized need or fulfill a compelling educational purpose.

Contracted Service Providers and Authorized Agents of the District

Any contracted service provider, employee of a contracted service provider, or authorized agent of the District (e.g., an authorized District volunteer) who provides services to the District on District premises, in District vehicles, or when students are present in other settings is subject to the same prohibitions, restrictions, and exceptions regarding tobacco, nicotine, and vapor products as apply to District employees. To the extent relevant to the application of those policies and rules, any such person and the District shall consider whether the service provider or agent is (or was) acting within the scope of the applicable contactor or agency relationship.

Visitors and Other Individuals

Prohibited Use: Although additional restrictions apply to students, District employees, and other designated contractors and agents of the District, no person may smoke or otherwise use any tobacco product, any type of e-cigarette, any nicotine product that is not an FDA-approved smoking cessation product, or any vapor product that contains (or may sometimes contain) nicotine while the individual is on any premises owned, rented/leased, or controlled by the District or in any vehicle that is owned, rented/leased, or contracted by the District.

Exceptions:

1. This policy is not intended to prohibit the use of a non-nicotine, vapor-producing device that is designed and appropriately used for a medical purpose.

The administration shall make efforts to inform the public of the conduct prohibited by this policy, including by posting signs and by providing other appropriate information (e.g., in verbal, written, and/or electronic formats).
