

STUDENT ALCOHOL AND OTHER DRUG ABUSE

Policy 443.4

Waunakee Community School District

Page 1 of 2

The following apply whenever a student is on school premises or otherwise subject to the supervision of a school authority, including whenever a student is using District-provided transportation or participating in or attending any District-sponsored activity:

1. No student shall possess, use, distribute, sell, purchase, or be under the influence of alcohol, illegal drugs, or look alike substances.
2. No student may possess, use, distribute, sell, or purchase drug paraphernalia.
3. Students may possess and use prescription drugs and over-the-counter medications only as permitted under the District's student medication policies, and students are prohibited from selling, purchasing, and distributing such medications to the same extent as applies to illegal drugs.
4. A student may possess and use a product or substance that could improperly be used as a hazardous inhalant only (a) for a school-authorized purpose; and (b) in a manner that is consistent with the intent of the manufacturer and any cautionary labeling/instructions. Students may not be under the influence of a hazardous inhalant.
5. No student may possess, use, distribute, sell, purchase, or be under the influence of any controlled substance or controlled substance analog that is an intoxicant and that is not more specifically addressed by this policy, except to the extent any such possession or use is for a school-authorized purpose (e.g., a chemical used in an approved lab).

Students are expected to comply with this policy. Failure to comply shall result in school-imposed consequences which may include the provision of behavioral interventions and supports, appropriate referrals, sanctions under any applicable District's student activity code, and/or other disciplinary actions up to and including suspension or expulsion from school. Referrals may also be made to law enforcement officials.

A school principal, designee, or a law enforcement officer, authorized by the school board, may require a student to submit to a breath test to determine the presence of alcohol in the student's system whenever the person requiring the test has reasonable suspicion that the student is under the influence of alcohol on school premises, in a motor vehicle used for District-provided transportation, or while participating in a District-sponsored activity. Such test shall be administered by a law enforcement officer or by a trained school district employee and shall meet state law requirements. A field sobriety test or field observation assessment may also be used to determine if a student is under the influence of a controlled substance. A student may be subject to school disciplinary action for refusing to submit to such a test, and a refusal may give rise to an adverse inference in school disciplinary proceedings. The District shall refer a student to appropriate alcohol and drug intervention services whenever the District has determined that (1) the student has been under the influence of alcohol in violation of this policy; or (2) a student has refused to submit to a required breath test as provided in this paragraph.

The Board expects the administration and other District employees, to the extent consistent with the employee's specific role, to provide instruction, structure District-sponsored activities, and conduct District operations in a manner that provides students with consistent messages regarding the dangers of alcohol and drug use.
