

A Credit Card Program has been established to provide another purchasing option, particularly when a vendor does not accept ACH payments, and to reduce the paperwork and handling costs associated with the payment of these purchases. The Credit Card Program delegates the authority and capability of purchasing items directly to the designated cardholders, allowing them to acquire materials faster and more efficiently. The Credit Card Program is not intended to circumvent or replace the standard purchasing procedures of the District

This policy is intended to provide general guidelines for using the Credit Card Program. For detailed information on implementing these policies, see the Credit Card Use-User Policies and Agreement document. Questions regarding this policy may be directed to the Director of Business Services.
