Waunakee Community School District

Introduction

A budget is a financial plan designed to achieve the educational objectives of the Waunakee Community School District. The budget needs to be accountable to meet these educational objectives within the financial constraints that exist. The budget needs to be understandable to the Board of Education, administration, staff, parents, and the district taxpayers. The budget was developed with significant staff input regarding needs and priorities. The budget was developed based on principals of long-term fiscal planning.

Timeline

The budget process for the 2015-2016 fiscal year began in January 2015 with the preparation of budget guidelines, a 5-year budget forecast, and a budget timeline. A special Board meeting was held on January 26th to review budget requests. The budget guidelines, a 5-year budget forecast, and budget timeline were approved by the Board of Education at the regular March board meeting. Building/department level budget planning took place between March-April. Staff presentations on the budget process took place in April/May. Administrative review of the budget took place in March - April. The first draft of the budget was presented to the Budget Committee and the Board of Education in May. The second draft of the budget was presented in June. The third draft of the budget will be presented in July. A public hearing on the budget will take place in July. The administration will request that the Board of Education approve the preliminary budget in July. The preliminary budget will be presented at the Annual Meeting in October with community approval of the tax levy. The Board of Education will approve the final version of the budget and set the tax levy at a special meeting scheduled for the 19th of October.

A state revenue cap formula is a significant factor in the development of the budget. The revenue cap limits the amount of revenue available to school districts from the two main sources—property taxes and state equalization aid. The revenue cap directly affects Funds 10, 38, and 41, and indirectly affects Fund 27. Fund 27 is primarily funded from a transfer from Fund 10.

The 2015-17 state budget proposal increases the revenue cap per student amount by \$0.00 during 2015-16. The most recent four years of revenue cap changes and the estimated increase for 2015-16 is shown below:

Please note: the 2014-15 and 2015-16 revenue cap has been increased by \$540,000.00 due to the November, 2014 operational referendum question.
