Waunakee Community School District

Introduction

A budget is a financial plan designed to achieve the educational objectives of the Waunakee Community School District. The budget needs to be accountable to meet these educational objectives within the financial constraints that exist. The budget needs to be understandable to the Board of Education, administration, staff, parents, and the district taxpayers. The budget was developed with significant staff input regarding needs and priorities. The budget was developed based on principals of long-term fiscal planning.

Timeline

The budget process for the 2018-2019 fiscal year began in January 2018 with all budget requests/reallocations/reductions due to the Business Manager by January 26th. A strategic planning presentation was provided to the Board of Education on February 12th. A special board meeting was held on February 27th with the Board of Education and leadership team to review the 2018-19 budget process. A draft of the budget planning process document was presented at a Budget Committee meeting in March. The budget planning process was approved by the Board of Education at the regular March board meeting. Building/department level budget planning will take place between March/April. Administrative review of the budget will take place in April. The first draft of the budget will be presented to the Budget Committee and the Board of Education in May. Staff presentations on the budget process will take place in May. The second draft of the budget will be presented in June. The third draft of the budget will be presented in July. A public hearing on the budget will take place in July. The administration will request that the Board of Education approve the preliminary budget in July. The preliminary budget will be presented at the Annual Meeting in October with community approval of the tax levy. The Board of Education will approve the final version of the budget and set the tax levy at a special meeting scheduled for the 23rd or 30th of October.

A state revenue cap formula is a significant factor in the development of the budget. The revenue cap limits the amount of revenue available to school districts from the two main sources—property taxes and state equalization aid. The revenue cap directly affects Funds 10, 38, and 41, and indirectly affects Fund 27. Fund 27 is primarily funded from a transfer from Fund 10.

The 2017-19 state budget increases the revenue cap per student amount by \$0.00 during 2018-19. The budget includes a \$204/student increase in the per pupil categorical aid. The most recent four years of revenue cap changes and the estimated increase for 2018-19 is shown below:

Please note: the 2014-15 through 2017-18 revenue caps were increased by \$540,000.00 per year due to the November, 2014 operational referendum question.
