## INDEPENDENT AUDITOR'S REPORT

To the School Board  
Waunakee Community School District  
Waunakee, Wisconsin

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activity, each major fund, and the aggregate remaining fund information of the Waunakee Community School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Waunakee Community School District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activity, each major fund, and the aggregate remaining fund information of the Waunakee Community School District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis-of-Matter**

### *Adoption of New Accounting Guidance*

As discussed in Note 1 to the financial statements, the Waunakee Community School District adopted the Governmental Accounting Standards Board's Statement No. 84, *Fiduciary Activities*, as of July 1, 2019. Our opinion is not modified with respect to this matter.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of proportionate share of net pension liability (asset) - Wisconsin Retirement System, schedule of contributions - Wisconsin Retirement System, schedule of employer OPEB contributions, schedule of changes in net OPEB liability and related ratios, and notes to required supplementary information, as stated in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

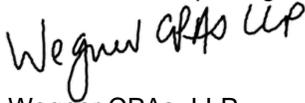

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Waunakee Community School District's basic financial statements. The combining general fund financial statements and the combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the *State Single Audit Guidelines*, and is also not a required part of the basic financial statements.

The combining general fund financial statements, the combining nonmajor fund financial statements, and schedule of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining general fund financial statements, the combining nonmajor fund financial statements, and the schedule of

expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 18, 2020 on our consideration of the Waunakee Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Waunakee Community School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Waunakee Community School District's internal control over financial reporting and compliance.

**WAUNAKEE COMMUNITY SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
June 30, 2020

---

The discussion and analysis of the financial performance of the Waunakee Community School District (District) provides an overview of financial activities for the fiscal year ended June 30, 2020. The analysis focuses on school district financial performance as a whole. Efforts have been made to provide comparison to prior year data when such data is available. It should be read in conjunction with the District's financial statements, which immediately follow this section.

**FINANCIAL HIGHLIGHTS**

The District's government-wide financial statements reflect the following:

- Total net position of the District increased to \$32,766,930 or 16.65% at June 30, 2020. Total governmental activity revenues increased to \$65,485,265 in fiscal year 2020, up from \$61,081,207 in fiscal year 2019, an increase of approximately 7.21%. Total governmental activity expenses increased to \$60,820,928 in fiscal year 2020, up from \$59,989,868 in the year ended **June 30, 2019**, an increase of 1.39%.
- Total business-type activity revenues decreased to \$1,748,001 in fiscal year 2020, down from \$2,260,541 in fiscal year 2019, a decrease of 22.67%.

The District's governmental fund financial statements reflect the following:

- Total fund balances of the District's governmental funds increased \$474,155 in fiscal year 2020. This increase included a \$350,555 decrease in the general fund, a \$171,804 increase in the debt service fund, a \$527,726 increase in the capital projects fund, and a \$125,180 increase in the nonmajor governmental funds. The change in the District's general fund balance is the result of capital maintenance expenditures approved by the School Board for the summer of 2019, which is connected to an increase in the fund balance in Fund 41. The School Board is intentionally increasing the Fund 41 fund balance for the fiscal years ending in 2018, 2019, and 2020 while decreasing the District's general fund balance. Capital maintenance expenditures approved by the School Board for the summer of 2020 will be funded from Fund 41.
- The fund balance for all governmental funds at June 30, 2020 was \$11,612,528. Of this amount, \$910,436 was restricted for special purposes, \$1,858,669 was restricted for capital projects, \$2,078,896 was restricted for debt service, \$49,788 was restricted for community services, \$78,133 was restricted for general fund, \$415,573 was committed for band uniforms and parking lot replacement, \$1,122,887 was assigned for maintenance projects, and \$5,098,146 remains unassigned.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

The discussion and analysis are intended to serve as an introduction to the District's basic financial statements. Those basic financial statements are comprised of three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains information supplementary to the basic financial statements.

**District-wide financial statements**

*District-wide financial statements* report information about the District as a whole, using accounting methods similar to those used by private sector companies.

**WAUNAKEE COMMUNITY SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
June 30, 2020

---

**OVERVIEW OF THE FINANCIAL STATEMENTS (continued)**

The *statement of net position* presents financial information on all of the District's assets, liabilities and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether or not the financial position of the District is improving or deteriorating. To assess the overall financial condition of the District, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities should be considered.

The *statement of activities* includes all revenues and expenses of the District, irrespective of when cash is actually received or paid out. The intent of the district-wide statements is to provide a snapshot of the District's Net Position and to provide an explanation of material changes that occurred since the prior year.

Both of the District-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activity). The governmental activities of the District include the general operations, special education, debt service, and capital project. The District reports nutrition services as a business-type activity.

**Fund Financial Statements**

The *fund financial statements* provide detailed information about the District's significant funds rather than the District as a whole. A fund is an accounting entity with a self-balancing set of accounts for recording assets, liabilities, revenues, and expenditures. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary, and fiduciary. Table 1 summarizes the various features of each of these funds.

- *Governmental Funds*—Most of the District's basic services are included in governmental funds, which focus on (1) cash and other financial assets that can readily be converted to cash and (2) the balances remaining at year-end that are available for funding future basic services. Governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or less financial resources to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information is provided that explains the relationship between them.
- *Proprietary Funds*—The District reports nutrition services as a proprietary fund. Proprietary funds provide the same type of information as the District-wide financial statements, only in more detail.
- *Fiduciary Funds*—The District is responsible for other assets that can only be used for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. These activities are excluded from the district-wide financial statements because the District cannot use these assets to finance its operations.

**DISTRICT-WIDE FINANCIAL STATEMENTS**

**Statement of Net Position**

The District ended its fiscal year with net position of \$32,766,930 of which \$29,082,655 was the net investment in capital assets, \$49,788 was restricted for community services, \$910,436 was restricted by donors, \$1,858,669 was restricted for capital projects, \$1,472,277 was restricted for debt service, \$5,810,988 was restricted for net pension asset, \$78,133 was restricted for general fund, and (\$6,587,741) was deficit unrestricted net position. Unrestricted net position represents the discretionary resources that can be used to fund general District operations.

For governmental activities, capital assets increased due to new construction during the year. The School Board approved a Warrior Soccer Stadium renovation project in March of 2020, which will be completed in August of 2020, and this project is the largest capital project underway as of June 30, 2020.

*Governmental Activities*

Table 3 demonstrates that on a district-wide basis the District ended fiscal year 2020 with an increase in net position of \$4,664,337, compared to an increase of \$1,091,339 in fiscal year 2019. The District received \$65,485,265 in revenue for the fiscal year 2020. The District relies primarily on property taxes (51.3% of total governmental revenues), and state equalization aid (31.6%) to fund governmental activities. The District received approximately 15.6% in the form of specific use state grants, federal aid and direct fees for services. Individuals who directly participated or benefited from a program paid 4.1% of the cost. Book and activity fees, admission to athletic events, open enrollment tuition and other fees are included as charges for services. Federal and state governments subsidized certain programs with grants and awards of \$7,555,153. Operating grants include Title I, IDEA, and Transportation Aid.

Table 4 presents the cost of governmental activities. The table reports each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost reflects the financial burden that was placed on the District's taxpayers by each of these functions.

The cost of all governmental activities this year was \$60,820,928. Individuals who directly participated or benefited from a program offering paid for \$2,668,999 of costs. Federal and state governments funding, along with other general contributions, subsidized certain programs with grants and contributions of \$7,555,153. The net cost of governmental activities, \$50,583,276 was financed primarily by \$33,583,120 of property taxes and \$21,240,778 of federal and state unrestricted aid.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
 June 30, 2020

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances in spendable resources. Such information is useful in assessing the District's financing requirements. Unassigned fund balances or lack thereof, may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The District completed the year with a total governmental fund balance of \$11,282,306, up from last year's ending fund balance of \$11,612,528. The District's unassigned fund balance, available for spending at the district's discretion was \$5,098,146.

The General Fund is the chief operating fund of the District. During the current fiscal year, the general fund saw a fund balance decrease of \$350,555, compared to a decrease of \$652,589 in the prior year. The change in the District's general fund balance is the result of capital maintenance expenditures approved by the School Board for the summer of 2019, which is connected to an increase in the fund balance in Fund 41. The School Board is intentionally increasing the Fund 41 fund balance for the fiscal years ending in 2018, 2019, and 2020 while decreasing the District's general fund balance. Capital maintenance expenditures approved by the School Board for the summer of 2020 will be funded from Fund 41.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

While the District's original budget for the general fund anticipated that expenditures would exceed revenues and other financing sources by \$433,686, the actual results for the year ended June 30, 2020 had expenses in excess of revenues and other financing sources by \$350,555.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

At June 30, 2020, the District had \$148,916,493 in capital assets, including land, construction in progress, land improvements, buildings, and furniture and equipment. Total accumulated depreciation on these assets was \$50,957,355. Asset acquisitions for governmental activities totaled \$827,834. The District recognized depreciation expense of \$3,471,726. Detailed information about capital assets can be found in Note 4 to the financial statements.

**Long-Term Debt**

At June 30, 2020, the District had \$68,740,115 in general obligation debt outstanding—a decrease of \$7,064,876 from fiscal 2019. Debt of the District is secured by a tax levy adopted by the school board at the time of issuance. Wisconsin statutes require that the first property tax receipts be segregated for annual debt service payments. Detailed information about the District's long-term obligations is presented in Note 6 to the financial statements.

**FACTORS BEARING ON THE DISTRICT'S FUTURE**

The following items may have a bearing on the future of the District:

- The School Board has hired an architectural firm, and a construction management firm, to begin the process of planning for a future facility referendum. A referendum date is still to be determined. The referendum will likely include the construction of a new middle school, remodeling at Heritage Elementary School, the creation of a high school campus incorporating the existing middle school, district wide maintenance projects, and an operational referendum question.
- The School Board approved presenting a \$2,127,502 non-recurring operational referendum in the amount of \$2,127,502 to the voting public on Tuesday, November 3rd, 2020. This is a 5 - year non-recurring operational referendum. This referendum passed on November 3rd, 2020. The primary use of the funds for the 2020-21 school year will be COVID related school reopening costs.
- As a result of the above stated referendum being approved by the public, the School Board will not be levying additional funds into Fund 38 for the purpose of a debt service defeasance. The standard debt service payments will be made during the 2020-21 fiscal year.

**IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**  
Year Ended June 30, 2020

Net change in fund balances—total governmental funds		\$ 474,155
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures.		
However, in the statement of activities the cost of those assets is allocated over the estimated useful lives as depreciation expense.		
Capital outlay reported in governmental fund statements	\$ 827,834	
Depreciation expense reported in the statement of activities	<u>(3,459,168)</u>	(2,631,334)

**NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Waunakee Community School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing accounting and financial reporting principles.

**Reporting Entity**

The District operates as a common school district under Chapter 120 of the Wisconsin Statutes. The District is governed by a seven member elected school board and is fiscally independent with taxing and borrowing powers. The District provides elementary, secondary, vocational, and special education services for four-year old kindergarten through grade 12.

As discussed in the detail below, the financial reporting entity consists of the primary government, and organizations for which the primary government is financially accountable. All of the accounts of the District comprise the primary government.

This report includes all of the funds of the District. The reporting entity for the District consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. If a primary government appoints a voting majority of an organization's officials or if the organization is fiscally dependent on the primary government and there is a potential for those organizations either to provide specific financial benefits to, or to impose specific financial burdens on, the primary government, the primary government is financially accountable for those organizations. An organization has a financial benefit or burden relationship with the primary government if, for example, any one of these conditions exists. The primary government may be financially accountable if an organization is fiscally dependent on the primary government. The report does not contain any component units.

**Basis of Presentation**

*District-Wide Financial Statements*

The statement of net position and statement of activities present financial information about the District's governmental activities. They include all funds of the District except for fiduciary funds. Governmental activities, which are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The District does not allocate indirect expenses.

Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxes and other items not properly included among program revenues are reported instead as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the district-wide financial statements.

*Fund Financial Statements*

The fund financial statements provide information about the District's funds, including the fiduciary funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the district-wide financial statements. The emphasis of fund financial statements is on the major governmental funds; each is displayed in a separate column. All remaining funds are aggregated and reported as nonmajor governmental funds.

The District reports the following major governmental funds:

**General Fund**

The general fund is the general operating fund of the District and is always classified as a major fund. The general fund is used to account for all financial resources except those required to be accounted for in another fund.

**Debt Service Fund**

The debt service fund is used to account for financial resources to be used for the payment of general long-term debt principal, interest, and related costs.

**Capital Projects Fund**

The capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

The District reports the following major proprietary fund:

**School Nutrition Services Fund**

The school nutrition services fund is used to account for the District's food services, generally the school breakfast and lunch programs.

The District reports the following nonmajor governmental funds:

**Special Revenue Funds**

The special revenue funds are used to account and report the proceeds of specific revenue sources (other than major capital projects) that are restricted or committed to expenditures

for specific purposes. The District reports the Special Revenue Gift Fund, the Community Service Fund, and the Package Cooperative Fund as special revenue funds.

Additionally, the District reports the following fund type:

**Employee Benefit Trust Fund**

The employee benefit trust fund is used to account for resources legally held in trust for the District's post-retirement health insurance benefits.

**Measurement Focus and Basis of Accounting**

The district-wide and fiduciary fund statements are presented using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded at the time liabilities are incurred regardless of the timing of the related cash flows.

Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the tax is levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when the liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, and compensated absences are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principle ongoing operation. The principle operating revenue is charges to students for meals. Operating expenses for proprietary funds include the cost of sales, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical funds, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement resources to such programs, followed by general revenues.

***Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance***

**Cash and Investments**

The District's cash and investments are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. Cash and investment balances for individual funds are pooled unless maintained in segregated accounts.

The District is limited to investments authorized by Wisconsin State Statute 66.0603.

1. Time deposits in any credit union, bank, savings bank, trust company, or savings and loan association which is authorized to transact business in the state if the time deposits mature in not more than three years.
2. Bonds or securities issued or guaranteed as to principal and interest by the federal government, or by a commission, board, or other instrumentality of the federal government.
3. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state, as well as bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, the University of Wisconsin Hospitals and Clinics Authority, a local cultural arts district, or the Wisconsin Aerospace Authority.
4. Any security which matures or which may be tendered for purchase at the option of the holder within not more than seven years of the date on which it is acquired, if that security has a rating which is the highest or second highest rating category assigned by Standard & Poor's Corporation, Moody's Investors Service, or other similar nationally recognized rating agency or if that security is senior to, or on a parity with, a security of the same issuer which has such a rating.
5. Securities of an open-end management investment company or investment trust, with certain limitations:
  - a. Bonds or securities issued under the authority of the municipality;
  - b. The local government pooled-investment fund as established under Section 25.50 of the Wisconsin Statutes; the state of Wisconsin local government investment fund (LGIP)
  - c. Agreements in which a public depository agrees to repay funds advanced to it by the District, plus interest, if the agreement is secured by bonds or securities issued or guaranteed as to principal and interest by the federal government.
  - d. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
  - e. Repurchase agreements with public depositories, with certain conditions.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**Receivables and Payables**

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. The current portion of lending/borrowing arrangements between funds is identified as due to/from other funds. The noncurrent portion of outstanding balances between funds is reported as advances to/from other funds.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in the applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Property taxes are recognized as revenues in the year for which they are budgeted. Under Wisconsin Statutes, each County in the District's taxing jurisdiction purchases the outstanding property taxes of the District in August of each year. The statutory guarantee assures the District full collection of all property taxes within sixty days of its year end, and hence, the availability of these funds to finance expenditures of the fiscal year for which the taxes were levied. Property taxes are levied in November on the assessed value as of the prior January 1, and are due in full by January 31, or in installments with the last payment due in July.

Accounts receivable are recorded at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided in the governmental funds since it is believed that the amount of such allowance would not be material to the financial statements.

**Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the district-wide and the fund financial statements.

**Capital Assets**

Capital assets are reported at historical cost or estimated historical cost. Donated assets are recorded at the estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's useful life are not capitalized.

Capital assets are depreciated using the straight-line method over the estimated useful lives. Capitalization thresholds and estimated useful lives of capital assets reported in the district-wide statements and proprietary funds are as follows:

<u>Assets</u>	<u>Capitalization Threshold</u>	<u>Years</u>
Building and building improvements	\$25,000	20 - 50
Land improvements	5,000	10 - 20
Furniture and equipment	5,000	5 - 20

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**Deferred Outflows/Inflows of Resources**

In addition to assets, the balance sheet will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has deferred outflows as of June 30, 2020 related to pension and other postemployment benefits activity.

In addition to liabilities, the balance sheet will report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has deferred inflows as of June 30, 2020 related to pension and other postemployment benefits activity.

**Compensated Absences and Other Employee Benefit Amounts**

Sick leave benefits are reflected as expenses when paid. The District's policy allows employees to earn varying amounts of sick pay for each year employed. Upon retirement, the employee is entitled to a deposit into a Health Reimbursement Account at the various rates as follows:

Teachers	\$85/day up to a maximum of 120 days
Classified staff and administrative assistants	\$110/day up to a maximum of 120 days
Custodians	\$110/day up to a maximum of 120 days

Administrators and administrative support staff are eligible for vacation per diems and health, dental, and life insurance up to age 65.

The compensated absences liability consists of the District's estimate of payouts for sick leave upon retirement. The compensated absences liability is based on rates in effect as of June 30, 2020.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the unpaid compensated absences are not expected to be paid using expendable available resources and, therefore, the liability is not reported.

**Pensions**

For purposes of measuring the Net Pension Liability (Asset), Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions, and Pension Expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**Other Postemployment Benefits Other Than Pensions (OPEB)**

Teachers who have been employed by the District at least 15 years and who have reached the age of 55 are eligible to receive retirement benefits. Teachers hired after April 1, 2008 receive a credit of \$1,000 per year of service to the District to be used to fund a post-employment Health Reimbursement Account (HRA). Teachers hired before April 1, 2008 receive a credit of \$1,200 per year of service to the District to be used to fund a post-employment HRA.

Administrators are eligible for retirement benefits at age 55. The District contributes to health, dental, and life insurance via a Health Reimbursement Account (HRA) for a maximum of 10 years or the age the retired employee is eligible for Medicare, whichever comes first. Premiums contributed are based on a vesting schedule. Vesting varies based on years of services. For employees with less than 6 years of service no premium is contributed. After 6 years, 10% of the premium is contributed for each additional year of services up to 10%. Employees are fully vested at 15 years. Administrators hired after April 1, 2011, will have a deposit to an HRA based on number of hours worked.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Other Postemployment Benefit Plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

**Long-Term Obligations**

In the district-wide financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method over the term of the related debt. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**Claims and Judgments**

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditures for claims and judgments are only reported in the governmental funds if it has matured. Claims and judgments are recorded in the district-wide statements as expense when the related liabilities are incurred. There were no significant claims or judgments at year end.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

**Net Position**

In the district-wide financial statements, equity is classified as net position and displayed in three components:

*Net Investment in Capital Assets*—Consists of capital assets including restricted capital assets, net of accumulated depreciation less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets plus unspent proceeds.

*Restricted Net Position*—Consists of Net Position with constraints placed on use by 1) external groups such as creditors, grantors, or contributors, or 2) law through constitutional provisions or enabling legislation.

*Unrestricted Net Position*—All other Net Position that do not meet the definition of “restricted” or “net investment in capital assets.”

**Fund Balance**

Governmental fund equity is classified as fund balance. In the fund financial statements, fund balance is presented in five possible categories:

*Nonspendable*—Amounts that cannot be spent because they are either (a) not in a spendable form or (b) legally or contractually required to be maintained intact. This classification includes inventories, prepaid items, assets held for resale, and long term receivables.

*Restricted*—Constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

*Committed*—Resources that can only be used for specific purposes as the result of a formal action of the District’s highest level of decision-making authority. Any changes in the constraints imposed require the same formal action of the District that originally created the commitment. The Board of Education is the highest level of decision-making authority.

*Assigned*—Resources that are neither restricted nor committed for which the District has stated intended use as established by the Board of Education. Under the District’s adopted policy, the Board of Education may assign amounts for specific purposes at the recommendation of the Business Manager.

*Unassigned*—Resources that are available for any purpose. Unassigned amounts are only reported in the general fund.

**Use of Restricted Resources**

The District considers restricted amounts to be spent first when both restricted and unrestricted net position are available unless there are legal constraints that prohibit doing this. Additionally, the

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

District considers amounts to be spent first out of committed amounts, then assigned and lastly unassigned amounts of fund balance when expenditures are made.

**Budgetary Information**

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note 1.

Operating budgets are adopted each fiscal year for all governmental funds in accordance with Section 65.90 of the Wisconsin Statutes. The budgeted amounts presented include amendments adopted during the year. Transfers between functions and changes to the overall budget must be approved and amended by a resolution from the Board of Education. Appropriations lapse at year end unless specifically carried over.

**Use of Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures.

**Adoption of New Accounting Guidance**

In January 2017, the Governmental Accounting Standard Boards issued Statement No. 84, *Fiduciary Activities*. The core principle of the new guidance is to define the criteria for identifying fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Additionally, ensuring that the District’s student activities that are not administered by the school are included in the agency fund and any student activities that are administered by the school are maintained in a special revenue fund.

During the year ended June 30, 2020, the District adopted GASB Statement No. 84, *Fiduciary Activities*, using a retrospective method of transition. The implementation of this statement has resulted in changing the presentation of the financial statements by transferring all of the District’s student activities and private purpose trust funds, which are administered by the District, to the Special Revenue Fund. Beginning net position has been restated to reflect this change.

**NOTE 2—CASH AND INVESTMENTS**

As of June 30, 2020, cash and investments consist of the following:

	Bank Balance	Carrying Value	Risk
Deposits with financial institutions	\$ 537,575	\$ (213,020)	Custodial credit
Wisconsin Investment Series Cooperative	3,491,320	3,491,320	Credit and interest rate

Other investments	395,885	395,885	Credit and interest rate
<b>Total cash and investments</b>	<b><u>\$ 15,813,617</u></b>	<b><u>\$ 15,063,022</u></b>	

The District's cash and investments are reported in the financial statements as follows:

Statement of net position	
Governmental activities	\$ 8,280,129
Business-type activities	184,814
Statement of fiduciary net position	
Trust Funds	<u>6,598,079</u>
<b>Total cash and investments</b>	<b><u>\$ 15,063,022</u></b>

*Custodial Credit Risk*

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District would not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of failure of the counterparty (e.g. broker-dealer) to a transaction, the District would not be able to recover the value of investments that are in the possession of another party. The District does not have a custodial credit risk policy for investments.

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000. Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may be significant to individual organizations. As of June 30, 2020, \$6,885,617 of the District's deposits with financial institutions were uninsured and uncollateralized, and \$1,000,000 of the District's deposits with financial institutions were collateralized by the pledging financial institution's trust department or agent not in the District's name. The District does not have a custodial risk policy for deposits.

PMA Financial Network is the administrator and investment manager for the WISC. The WISC is not registered with the Securities and Exchange Commission but invests in funds in accordance with applicable Wisconsin statutes. The WISC is not rated. The WISC has the characteristics of a mutual fund and accordingly, reports the value of its underlying assets at fair value.

**WAUNAKEE COMMUNITY SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2020

---

NOTE 2—CASH AND INVESTMENTS (continued)

At June 30, 2020, the District's share of the WISC's assets was substantially equal to the amount reported on page 31. The District is subject to market risk and credit risk through its investment in WISC.

The District voluntarily invests excess funds in the LGIP, an external investment pool. The LGIP is part of the State Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. The SIF is not rated. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At June 30, 2020, the fair value of the District's share of the LGIP's assets was substantially equal to the amount reported on page 31.

*Credit Risk*

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation. The District's mutual fund investments are not rated.

*Interest Rate Risk*

Interest rate risk is the risk that the fair value of the District's investments will decrease as a result of an increase in interest rates. The longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure of fair value losses arising from increasing interest rates. As of June 30, 2020, Wisconsin Investment Series Cooperative, Wisconsin Local Government Investment pool, corporate bonds, mortgage and asset-backed securities, direct commercial mortgages, and other investments have a maturity of 12 months or less.

*Concentration of Credit Risk*

The District does not have a policy for concentration of credit risk. The District has the following investments that represent 5% or more of the total investments:

Mid-America - Corporate Bonds	\$ 4,090,809
Mid-America - Mortgage & Asset-Backed Securities	1,187,654
Mid-America - Direct Commercial Mortgages	923,731
Mid-America - Other	395,885

The District categorizes its fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTE 2—CASH AND INVESTMENTS (continued)

All of the District's recurring fair value measurements as of June 30, 2020 are:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Corporate bonds	\$ 4,090,809	\$ -	\$ 4,090,809
Mortgage and asset-backed securities	1,187,654	-	1,187,654

	<u>\$ 6,598,079</u>	<u>\$ 1,319,616</u>	<u>\$ 5,278,463</u>

NOTE 3—INTERFUND ADVANCES AND TRANSFERS

Transfers are used to (1) move revenues from the fund that statute or budget requires collection from to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts, the general fund, as debt service payments come due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The following is a schedule of interfund receivables and payables, including any overdrafts on pooled cash and investment accounts:

Receivable fund	Payable fund	Amount
General fund	Special education fund	\$ 99,679
Employee benefit trust fund	General fund	577
		<u>\$ 100,256</u>

The following balances as of June 30, 2020, represent transfer in/out between all funds:

Transferred to	Transferred from	Amount
Special education fund	General fund	\$ 5,771,782
Food service fund	General fund	208,746
		<u>\$ 5,980,528</u>

For the statement of net position, interfund balances which are owed within the governmental activities are netted and eliminated.

NOTE 6—LONG-TERM OBLIGATIONS (continued)

The 2020 equalized valuation of the District as certified by the Wisconsin Department of Revenue is \$3,092,644,557. Wisconsin State Statute 67.03 limits total general obligation indebtedness of the District to ten percent of the equalized value of taxable property within the District's jurisdiction. The legal debt limit, as of June 30, 2020 was as follows:

Debt limit (10% of \$3,092,644,557)	\$ 309,264,456
Less: long-term debt applicable to debt margin:	66,095,000
Margin of indebtedness:	\$ 243,169,456

	\$ 66,095,000	\$ 16,372,442	\$ 82,467,442

In prior years, the District defeased certain general obligations bonds by placing the proceeds of new debt in an irrevocable trust to provide for the future debt service payments on the old debt. Accordingly, the trust account assets and liability for the defeased bonds are not included in the District's financial statements. At June 30, 2020, \$1,970,000 of debt outstanding is considered defeased.

NOTE 7—EMPLOYEE'S RETIREMENT SYSTEM

**Plan description.** The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issued a standalone WRS Financial Report, which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

NOTE 7–EMPLOYEE’S RETIREMENT SYSTEM (continued)

**Vesting.** For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

**Benefits provided.** Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant’s three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee’s contributions plus matching employer’s contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

**Post-retirement adjustments.** The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system’s consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the “floor”) set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment %	Variable Fund Adjustment %
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)

NOTE 7—EMPLOYEE’S RETIREMENT SYSTEM (continued)

**Contributions.** Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for General category employees, including Teachers, Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$1,911,485 in contributions from the employer which equaled required contributions.

Contribution rates as of December 31, 2019, the measurement date, are as follows:

Employee Category	Employee	Employer
General (including teachers, executives, and elected officials)	6.55%	6.55%
Protective with Social Security	6.55%	10.55%
Protective without Social Security	6.55%	14.95%

**Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2020, the District reported an asset of \$5,816,148 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2019, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2018 rolled forward to December 31, 2019. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District’s proportion of the net pension asset was based on the District’s share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2019, the District’s proportion was 0.18037607% which was an increase of 0.00188484% from its proportion measured as of December 31, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$2,170,633.

NOTE 7—EMPLOYEE’S RETIREMENT SYSTEM (continued)

**Actuarial assumptions.** The total pension liability (asset) in the December 31, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2018
Measurement Date of Net Pension Liability (Asset)	December 31, 2019
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Long-Term Expected Rate of Return:	7.0%
Discount Rate:	7.0%
Salary Increases:	
Inflation	3.0%
Seniority/Merit	0.1% - 5.6%
Mortality:	Wisconsin 2018 Mortality Table
Post-retirement Adjustments*	1.9%

*\*No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.*

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. The total pension liability (asset) for December 31, 2019 is based upon a roll-forward of the liability calculated from the December 31, 2018 actuarial valuation.

**Long-term expected return on plan assets.** The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**WAUNAKEE COMMUNITY SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**

NOTE 7—EMPLOYEE’S RETIREMENT SYSTEM (continued)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.75%

Asset Allocations are managed within established ranges; target percentages may differ from actual monthly allocations.

**Single discount rate.** A single discount rate of 7.00% was used to measure the total pension liability (asset) for the current and prior year. This single discount rate is based on the expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 2.75% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-year Municipal GO AA Index” as of December 31, 2019. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 7.00% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

NOTE 8—OTHER POST-EMPLOYMENT BENEFITS

**Plan Description**

*Plan Administration.* The District provides other post-employment benefits (OPEB) for its employees through a single-employer retiree plan that provides postemployment health insurance benefits to eligible employees and their spouses. Benefits and eligibility are established and amended by the Board of Education.

*Plan Membership.* At June 30, 2018, the date of the latest actuarial valuation, there were approximately 576 active plan members and 35 inactive plan members currently receiving benefits. Employees hired after July 1, 2012 will not be eligible for District-provided post-employment benefits if the employee is receiving an annuity from WRS at the time of hire.

*Contributions.* There is no requirement for any employee or employer contributions for funding of the plan. The employer makes all contributions, and for the year ended June 30, 2019, the measurement date, the District contributed \$587,220 to the Waunakee Community School District Post-Employment Benefits Trust. For the year ended June 30, 2019, the District’s average contribution rate was 2.21% of covered-employee payroll.

**Net OPEB Liability**

The District’s net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

**WAUNAKEE COMMUNITY SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
June 30, 2020

---

NOTE 8—OTHER POST-EMPLOYMENT BENEFITS (continued)

*Actuarial Assumptions.* The total OPEB liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Investment rate of return	3.50% based upon all years of projected payments discounted at a 3.50% long-term expected rate of return
Healthcare cost trend rates	7.5% decreasing by 0.50% per year down to 6.5%, then by 0.10% per year down to 5.0%, and level thereafter.

The actuarial assumptions are based upon the Wisconsin experience study conducted in 2015 using Wisconsin Retirement System (WRS) experience from 2012-14. The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rates. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

*The Long-Term Expected Rate of Return on OPEB Plan Investments.* Since the District currently holds assets in fixed income funds or as cash equivalents, the long-term expected rate of return on OPEB plan investments was based upon the 20-year AA municipal bond rate and applied to all periods of projected benefit payments to determine the total OPEB liability.

*Discount Rate.* The discount rate of 3.50% was used in calculating the District's OPEB liabilities (based upon all projected payments discounted at a long-term expected rate of return of 3.50%). This rate is equivalent to the Bond Buyer GO 20-year AA Bond Index published by the Federal Reserve as of the week of the measurement date. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

**NOTE 11—RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; error and omissions; workers' compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded insurance coverage in any of the last three years. There were no significant reductions in coverage compared to the prior year.

**NOTE 12—LIMITATION OF SCHOOL DISTRICT REVENUES**

Wisconsin Statutes limit the amount of revenues that school districts may derive from general school aids and property taxes unless a higher amount is approved by a referendum. The annual revenue increase from these sources is limited to an allowable per member increase which is determined by the legislature. This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

**NOTE 13—COMMITMENTS AND CONTINGENCIES**

From time to time the District is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the District's legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the District's financial position.

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

NOTE 1—BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal and state awards (the Schedule) includes the federal and state award activity of the District under programs of the federal government and state agencies for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and *State Single Audit Guidelines*. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Specifically, debt service expenditures, as well as expenditures related to claims and judgments, and compensated absences are recorded only when payment is due. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3—INDIRECT COST RATE

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4—OVERSIGHT AGENCIES

The District's federal oversight agency for audit is the U.S. Department of Education. The District's state cognizant agency is the Wisconsin Department of Public Instruction.

NOTE 5—ELIGIBLE COSTS FOR SPECIAL EDUCATION

Eligible costs for special education under project 011 were \$7,393,635 for the year ended June 30, 2020.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education  
Waunakee Community School District  
Waunakee, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Waunakee Community School District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Waunakee Community School District's basic financial statements, and have issued our report thereon dated November 18, 2020.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Waunakee Community School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Waunakee Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Waunakee Community School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

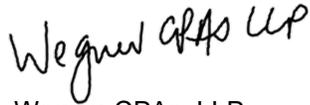

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Waunakee Community School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM  
AND THE MAJOR STATE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE AND THE *STATE SINGLE AUDIT GUIDELINES*

To the Board of Education  
Waunakee Community School District  
Waunakee, Wisconsin

**Report on Compliance for the Major Federal Program and the Major State Program**

We have audited the Waunakee Community School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *State Single Audit Guidelines* (the *Guidelines*) that could have a direct and material effect on the Waunakee Community School District's major federal program and major state program for the year ended June 30, 2020. The Waunakee Community School District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for the Waunakee Community School District's major federal program and major state program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the *Guidelines*. Those standards, the Uniform Guidance, and the *Guidelines* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the major federal or the major state program occurred. An audit includes examining, on a test basis, evidence about the Waunakee Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program and the major state program. However, our audit does not provide a legal determination of the Waunakee Community School District's compliance.

***Opinion on the Major Federal Program and the Major State Program***

In our opinion, the Waunakee Community School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program and the major state program for the year ended June 30, 2020.

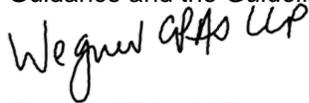

## Report on Internal Control over Compliance

Management of the Waunakee Community School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Waunakee Community School District's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program and the major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and the major state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the *Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Waunakee Community School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the *Guidelines*. Accordingly, this report is not suitable for any other purpose.
